FULL SAIL UNIVERSITY
Bachelor of Science
Web Design & Development
January 2011 - June 2013
3.2 GPA

ABOUT ME

My name is Angel Diaz. I learned my early web development skill from Full Sail University. They taught me the full stack knowledge that I still carry with me to this day. Over the last few development years, I have become a full stack developer and haven't looked back since then. I enjoy the problem solving and the rapid learning that comes with build front end applications. I have built applications for large companies and sports teams such as The Orlando Magic.

SKILLS

PROGRAMMING/CODING

HTML5	CSS3	Bootstrap	JavaScript
